

Keep Loudoun Beautiful

By Danielle McAlister

Loudoun is very beautiful. I have a few tips to help make Loudoun a better place for every citizen in Loudoun County. We could put out more trashcans and maybe a few recycle bins too. So people don't litter. We could also plant more trees, flowers and other types of plants. We really have to stop polluting because it is bad for the animals in our environment and our community. One way we could stop polluting is maybe we could start riding our bikes or we could walk. Whatever we do to Loudoun, I still think it is very beautiful. We should always help clean up our environment.
