

KEEP LOUDOUN BEAUTIFUL

Recycling. Recycling is one of the most important things to do when you throw something away. It is part of the three R's. Reduce, Reuse, Recycle. These three R's help us to Reuse more things in the world. Like the Lovettsville schools milk cartons as pencil holders, or water bottles as vases for flowers. You can put posters up in the Lucketts Community Center, or join the Girl\Boy Scouts to help Loudoun become a better place.

You could also clean-up. Cleaning up is something you could do anywhere. You could clean-up around the house, in the yard, or at Lucketts and Lovettsville. To clean-up means to be ready, and being ready is a whole new thing of beautifying the world. You can also tell all your friends and family to get them to help clean-up our VA for a fresh start!

Beautification. Beautification is one of the main things to keeping Loudoun healthy. We need beauty to keep animals around. Animals are a part of beauty, so are trees, grass, and people. People are helping the plants & animals to grow. Some people are trying to raise the population of endangered species of animals. The scientists that study plants are trying to keep lots of them alive from plant-eaters in gardens, forests, & rainforests. You might be a person to make beauty in Loudoun, too!
