

KEEP LOUDOUN BEAUTIFUL

I live in Loudoun County and I want my county to be beautiful and clean. I help my family to clean up at home and my friends at School to maintain my county clean and beautiful. To keep Loudoun neighborhood clean and beautiful, all the people in the community should help each other to retain our goal. We should motivate and inspire everyone to take responsibility for a clean and beautiful community. We, all residents and friends can share the opportunity to clean and beautify Loudoun County. All the members should work as volunteers to clean the roadsides of community. Flood drains should be checked to see the proper disposal of stagnant water. We should plant more trees, shrubs, flowers throughout the community. We should clean up all the wastage in our environment to keep our living place safe and beautiful. We should organize a litter clean up in our neighborhood. All the members of the community can help to clean the neighborhood by collecting paper, newspaper, plastic bottles and aluminum cans from home as well as from work and bring them to the recycling. We should preserve the natural beauty and environment of our Loudoun County.
